

JUST LINE

Ideal for light commercial vehicles up to 3,5 t

JUST 750R

DAKEN[®]
evolving ideas

The only comprehensive line of toolboxes which can be universally mounted on every commercial vehicle up to 3,5 t thanks to their reduced depth of 300 mm.

//

JUST

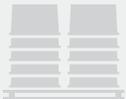

E11 73 - 0111 68

MATERIAL: Polypropylene, nylon. With high resistance to flammability, water and dust ingress, fuel and lubricating oil, UV rays, high and low temperatures.

PRODUCTION PROCESS: Injection moulding.

UN/ECE, N°73 HOMOLOGATION: as Lateral Protection System, test performed at VCA (UK).

- 01. Reinforcement ribs to ensure solidity and durability
- 02. Cylinder lock to ensure maximum security
- 03. Internal TPE seal and enveloping lid against water and dust ingress

**LOGISTICS OPTIMIZATION**

Logistics optimization thanks to the stackability of the disassembled product (fast and intuitive to assemble)

CODE	A x B x C external dim. (mm)	OPTIMAL LOAD (kg)	WEIGHT (kg)	CAPACITY (Lt)
81100	500x350x300	30	3,0	30,5
81102	500x350x400	35	3,3	41,5
